

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

- 1 (Currently amended) A display device comprising:
  - a light guide;
  - a movable element; and
  - selection means to locally bring ~~said~~ the movable element into contact with the light guide,
  - ~~characterized in that wherein~~ the display device ~~comprises~~ includes means for reducing adhesive forces between the movable element and the light guide.
- 2 (Currently amended) A display device comprising:
  - a light guide;
  - a movable element; and
  - selection means to locally bring ~~said~~ the movable element into contact with the light guide,
  - ~~characterized in that wherein~~ the selection means comprise transparent electrodes and, in operation, the movable element, provided that it is in contact with the light guide, contacts the light guide at the location of an electrode, thus causing light to be emitted through the transparent electrode.
- 3 (Currently amended) ~~A~~ The display device ~~as claimed in of~~ claim 1, ~~characterized in that wherein~~ the movable element ~~comprises~~ includes means for removing a static charge from the movable element.
- 4 (Currently amended) ~~A~~ The display device ~~as claimed in of~~ claim 2, ~~characterized in that wherein~~ the movable element is electrically conducting and at a fixed potential.

5 (Currently amended) A ~~The~~ display device as ~~claimed in~~ of claim 1, characterized ~~in that wherein~~ the movable element is provided with an anti-adhesion layer on the side facing the light guide and/or the light guide is provided with an anti-adhesion layer on the side facing the movable element.

6-7 (Canceled)

8 (Currently amended) A ~~The~~ display device as ~~claimed in~~ of claim 1, characterized ~~in that wherein~~ there is no liquid between the movable element and the light guide.

9 (Currently amended) A ~~The~~ display device as ~~claimed in~~ of claim 1, characterized ~~in that wherein~~ the movable element is situated in an evacuated space.

10 (Currently amended) A ~~The~~ display device as ~~claimed in~~ of claim 1, characterized ~~in that wherein~~ the movable element is arranged between the light guide and a further element, and the selection means comprise means for locally generating a force causing the movable element to move towards the light guide as well as a force causing the movable element to move towards the further element.

**Amendments to the Drawing Figures:**

The attached **five (5)** drawing sheet(s) include proposed changes to FIG(S) **6A** and **6B** and replace(s) the original sheet(s) including FIG(S) **1, 2, 3A, 3B, 4, 5, 6A, and 6B**.

Attachment: Replacement Sheet(s)
